

PROJECT:

TYPE:

QTY:

2" Square Downlight

FEATURES

- Modular design, field replaceable LED module, trim, beam lens and accessories.
- Interchangeable secondary reflector options for glare control and maximum visual comfort.
- Quiet ceiling achieved through deep regress.
- Precise light control, 15°/24°/38°/55° TIR lens beam options.
- Offered standard with flicker free dimming to 1% and premium, fade-to-off dimming (.1%), option available.

SPECIFICATIONS

Input Voltage	100-277V AC
Wattage	8W
Delivered Lumens	680Lm-840Lm +/-5%
LED	<3-Step MacAdam Ellipse (2-Step Available)
CCT	27K, 30K, 35K, 40K, D2W, TW
CRI	>90Ra
Beam Angle	TIR Lens 15°/24°/36°/55°
Adjustability	Max Tilt Angle 30° / Horizontal Rotation Angle 355°
Dimming	Trimode Dimming /Triac / 0-10V (100%-1%)
Lamp Life	50,000Hr
Environment	IP44
Operating Temp	-4° F - 104° F

Mounting Options

NC - New Construction Frame-In Tray

Standard bar hanger (included)
Mounting Length 14 3/4" - 26".
Extension kit can be ordered separately.

Commercial bar hanger #1487
Butterfly and Caterpillar brackets available

New Construction/Remodel Mounting

Note: Small fixture housing and driver enclosure box assembly can be used for both new construction and remodel. For remodel application, no new construction tray is needed.

The ceiling cutout opening will be too small to fit your hand through it. So it is very important that the LED driver remains accessible by removing the lighting fixture, thus allowing you to inspect the connectors or LED driver at any time without physically damaging your ceiling or other building materials.

This mounting allows for installation from below the ceiling and full serviceability of the LED driver and driver/junction

LED Driver Enclosure and Junction Box

IC / Chicago Plenum / Airtight

Length	Width	Height
9 3/4"	8 1/2"	3 1/2"

Primary Specifications:

Dimensions / Weight

A 3D perspective diagram of a rectangular object, likely a component of a machine. The object is shown with its front, top, and left side. Four dimensions are indicated with red dimension lines and labels: L (length) along the bottom front edge, W (width) along the top right edge, H (height) along the right vertical edge, and M (depth) along the bottom left edge.

Primary Specifications:

Dimensions / Weight

The Remote Test Switch may be mounted adjacent to the LED Fixture by others.

Above ceiling access is recommended for ease of service, but LED Fixture Sizes of 4" and Larger are capable of below ceiling access. IC/ICAT/CP Box and ITS option require an access panel in the ceiling (or other form of access) adjacent to the installation location of the Emergency Battery.

Maximum remote mounting distance of the emergency driver shall be 50 feet.
Remote location wiring provided by others. Follow all Local and National Electric/
Building Codes.
